Form ADV Part 2A – Firm Brochure

(206) 207-8426

Dated: February 6th, 2023

This Brochure provides information about the qualifications and business practices of Millennial Wealth LLC, “MW”. If you have any questions about the contents of this Brochure, please contact us at (206) 207-8426. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Millennial Wealth LLC is registered as an Investment Adviser with the State of Washington, California, Texas, and other jurisdictions where exempt. Registration of an Investment Adviser does not imply any level of skill or training.

Additional information about MW is available on the SEC’s website at www.adviserinfo.sec.gov which can be found using the firm’s identification number 289970.

Item 2: Material Changes

The last annual update of this Brochure was filed on January 13, 2022. Since then, the following changes have been made:

- Registered in the state of Texas.
- Begun registration in New York.
- Increased our underlying hourly rate for our Wealthbase clients. Previously, we used \$275 an hour. We've increased our new rate to \$325. We feel this is more reflective of our cumulative experience and expertise (added two new designations in the CPWA® and ECA) along with the first hourly rate increase since the firms founding in 2017. Due to the underlying hourly rate increase, we're increasing the flat monthly fee's we advertise to \$225 per month (individuals) and \$275 per month (families) along with a \$900 upfront fee. Prior to entering into our agreement, clients receive a proposal of estimated total annual costs based on service requirements and the time involved. Billing will always be paid in arrears after services and hours are rendered. Invoices will include an "Account Receivable" in the description outlining the total balance due for the client, which is the total bill for all hours/services completed. This balance due will be decreased as it's billed against, and/or increased if more hours and services are completed. If the "Account Receivable" reaches zero or less than the clients invoice, the client will be refunded or billing will be paused until more hours and services are rendered.

Future Changes

From time to time, we may amend this Disclosure Brochure to reflect changes in our business practices, changes in regulations and routine annual updates as required by the securities regulators. This complete Disclosure Brochure or a Summary of Material Changes shall be provided to each Client annually and if a material change occurs in the business practices of MW.

At any time, you may view the current Disclosure Brochure on-line at the SEC's Investment Adviser Public Disclosure website at <http://www.adviserinfo.sec.gov> by searching for our firm name or by our CRD number 289970.

You may also request a copy of this Disclosure Brochure at any time, by contacting us at (206) 207-8426 or by emailing our Chief Compliance Officer, Levi Sanchez, at levi@millennialwealthllc.com.

Item 4: Advisory Business

Description of Advisory Firm

Millennial Wealth LLC is registered as an Investment Adviser with the State of Washington, California, Texas and other jurisdictions where exempt. We were founded in 2017. Levi Sanchez is the sole Owner of MW. MW currently reports \$45,352,756 in discretionary and \$0 in non-discretionary assets under management as of December 31st, 2022.

Types of Advisory Services

Investment Management Services

We are in the business of managing investment portfolios. Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation target. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. We may also review and discuss a client's prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the client (e.g. growth, growth and income, income, capital appreciation), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure.

As part of our investment management services, for accounts not directly managed by our firm where we do not have discretion, we will regularly review the current holdings and available investment options in these accounts. In addition we will monitor the accounts, and provide recommendations to the Client with regards to rebalancing and implementing our strategies as necessary.

Financial Planning

We provide financial planning services on topics such as, but not limited to; cash flow and budgeting, college savings, debt management, employee benefits optimization, estate planning, goals-based planning, insurance advice, investment management, retirement planning, tax preparation services, and tax planning.

Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the client. Clients purchasing this service will receive a written or an electronic report, providing the client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **Cash Flow and Budgeting:** We'll conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. This will include recommendations on how to automate the majority of monthly cash flow. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid.
- **Debt Management:** We'll review existing debt and determine the best strategies to consolidate, pay down, or decrease interest paid over time based on the overall financial situation. We'll also assist with large asset purchases and financing strategies such as mortgages.
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts.

We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

For clients engaging in **WealthPlus** financial planning with our firm, there MAY not be a separate fee for estate planning services. Our firm utilizes the services of Trust & Will, a third-party digital estate planning service for clients who have the need for estate planning review, creation or updates. WealthBase financial planning will not include paid services with Trust and Will and the client will pay Trust and Will directly should they choose to utilize their services.

- **Goals-Based Planning:** We will help clients identify and articulate financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Insurance Advice:** We will review existing policies to ensure proper coverage for life, health, disability, property & casualty policies. If additional insurance coverage is recommended, we'll review new policies with you to ensure adequate coverage is in place.
- **Investment Management:** Includes reviewing current investments and asset allocation and developing a strategy that fits the client's unique risk tolerance, time horizon, and goals. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Tax Preparation Services:** We offer Tax Preparation services for our clients to assist with the filing of federal and state tax returns for individuals, trusts, and businesses. The fees associated with tax preparation services are separate and in addition to your ongoing financial planning or advisory fees and are disclosed in Item 5. We will utilize the services of CS & Company, a third-party accounting and tax planning firm, to facilitate the preparation and filing of your tax return and we will work with you and CS & Company to gather the necessary information as part of this service. If the client also engages us for Tax Planning Services, CS & Company licensed CPAs will work with the client to also conduct research and answer tax-related questions to help the client adequately plan through certain transactions and financial changes so that they can fully understand any tax consequences or opportunities for savings in the future.

We may observe opportunities for tax savings that require planning or changes in the way the client handles some transactions. While an engagement for tax return preparation does not include significant tax planning services, we will share any ideas we have with you and discuss terms for any additional work that may be required to implement those ideas. For clients engaging in **WealthPlus** financial planning with our firm, there MAY not be a separate fee for tax filing services at the advisors discretion.

- **Tax Planning Strategies:** Advice may include ways to minimize current and future taxes as a part of your overall financial picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We will work with or consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes outside of the firm we use. We will participate in meetings or phone calls between you and your tax professional with your approval.

“WealthBase” Financial Planning Package

This service is tailored to clients who do not meet our AUM minimum (\$250,000 in assets directly managed by the firm) but wish to receive financial planning and investment guidance. This service involves identifying the client's objectives and creating clear goals around all financial aspects of their life through the financial planning process and culmination of a comprehensive financial plan. The client is able to communicate with MW Advisors

on an ongoing basis via meetings, email, and phone calls. At a minimum semi-annually, the advisor will meet with the client for a detailed review and update on the client's goals and objectives. Additional meetings may be scheduled as needed depending on the client's individual needs and situation or as requested by the client. The planner will monitor the plan, recommend appropriate changes, and ensure the plan is up to date. This service is based on an hourly rate of \$325 an hour. Prior to entering into an agreement with the firm the client receives an estimate of the overall cost based on requirements and the time involved. Our published fees may be discounted at the discretion of the firm. We strive to offer fees that are fair and reasonable in light of the experience of the firm and the services to be rendered for our clients.

“WealthPlus” Financial Planning Package

This service is tailored for clients with at least \$250,000 in investable assets, though this minimum is negotiable at the discretion of the advisor. This service involves identifying the client's objectives and creating clear goals around all financial aspects of their life through the financial planning process and culmination of a comprehensive financial plan. The client is able to communicate with MW Advisors on an ongoing basis via meetings, email, and phone calls. At a minimum semi-annually, the advisor will meet with the client for a detailed review and update on the client's goals and objectives. Additional meetings may be scheduled as needed depending on the client's individual needs and situation or as requested by the client. The planner will monitor the plan, recommend appropriate changes, and ensure the plan is up to date. At \$500,000 in investable assets under management, MW will cover the cost of estate planning services through Trust and Will and tax filing fees through CS & Company. This \$500,000 minimum is negotiable at the discretion of the advisor.

For both financial planning packages:

Clients are required to provide information to help complete the following areas of analysis: cash flow and budgeting, college savings, debt management, employee benefits optimization, estate planning, goals-based planning, insurance advice, investment management, retirement planning, tax preparation services, and tax planning. Once the client's information is reviewed, their plan will be built and analyzed, and the findings, analysis, and potential changes to their current situation will be reviewed with the client. Clients subscribing to this service will receive an electronic report, providing the client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. Typically, semi-annual meetings will be scheduled throughout the course of the year based on the needs of the client to review specific financial planning topics and investment-related items unless otherwise indicated by the client.

Material Conflicts of Interest: Millennial Wealth LLC is a Fee-Only financial planning firm. The business model inherently works to limit the number of conflicts of interest that arise between an adviser and client. However, not all conflicts can completely be erased regardless of the business structure. The following are examples of all conflicts of interest that could arise during our financial planning engagement:

- **Rollovers:** WealthPlus clients who have assets in retirement accounts elsewhere would potentially pay a larger financial planning fee if rolled into a Rollover IRA or Roth IRA with Millennial Wealth as the adviser. Millennial Wealth will only recommend rollovers or other asset gathering advice if it's in the best interest of the client. Instances, where it may be in the best

interest of the client, are to simplify their account management (reduce the number of retirement accounts), limited investment options at current retirement plan, and/or high administrative fees.

- **Hourly Rates:** WealthBase clients are billed according to an hourly rate. This could incentivize Millennial Wealth advisers to work less efficiently and to increase the time spent on particular client services in order to increase fees. In order to combat this, Millennial Wealth agrees to charge an agreed-upon fee every month, based on an hourly rate, which will not be greater than the agreed-upon monthly fee.

The client is under no obligation to act upon the investment advisor's recommendation, and if the client elects to act on any of the recommendations, the client is under no obligation to effect the transaction through the investment advisor.

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our clients. However, specific client financial plans and their implementation are dependent upon the client Investment Policy Statement which outlines each client's current situation (approximate investable assets, tax bracket, risk tolerance, time horizon, etc) and is used to construct a client-specific plan to aid in the selection of a portfolio.

Wrap Fee Programs

We do not participate in wrap fee programs.

Item 5: Fees and Compensation

Please note, unless a client has received the firm's disclosure brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the client within five (5) business days of signing the contract without incurring any advisory fee and without penalty. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Investment Management Services (Only Applies to WealthPlus)

Our standard advisory fee is based on the market value of the assets under management and is calculated as follows:

Account Value (AUM)	Annual Advisory Fee
\$0 - \$1,000,000	1.0%
\$1,000,001 - \$5,000,000	0.75%
\$5,000,001 - \$10,000,000	0.5%
+10,000,001	Negotiable

The annual fees are negotiable and are prorated and paid in arrears on a monthly basis. The advisory fee percentage of assets under management (AUM) with the advisor. The fee is applied to the account value as of

the last day of the previous month. No increase in the annual fee shall be effective without agreement from the client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees are directly debited from client accounts. Accounts initiated or terminated during a calendar month may be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no rebate will be needed upon the termination of the account.

We provide an additional service for accounts not directly held in our custody, but where we do have discretion and may leverage an Order Management System to implement tax-efficient asset location and opportunistic rebalancing strategies on behalf of the clients. These are primarily 401(k) accounts, HSA's, and other assets we do not custody. We regularly review the available investment options in these accounts, monitor them, and rebalance and implement our strategies in the same way we do other accounts, though using different tools as necessary.

This service is available to **all WealthPlus clients**. This fee will be assessed and billed monthly. Specifically, the exact amount charged is determined by the end account balance(s) at the end of the month. In either case, if the Adviser only manages your assets for part of the month, the charge will be prorated. The advisory fee is derived from the table shown on page 8 for Wealthplus clients.

Investment management fees are generally directly debited on a pro-rata basis from client accounts. The exception for this is directly-managed held-away accounts, such as 401(k)'s. As it is impossible to directly debit the fees from these accounts, those fees will either be assigned to the client's taxable account(s) or IRA's. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no rebate will be needed upon the termination of the account.

Pursuant to WAC 460-24A-135, when the adviser charges an advisory fee, the adviser will provide advisory clients with written billing information which will contain the fee(s), the formula used to calculate the fee(s), and the time period covered by the fee(s). This written billing information will be delivered to the client each time the investment adviser charges a fee. The adviser will not, at any time, be compensated on the basis of a share of capital gains upon or capital appreciation of the funds or any portion of the funds of the client except as permitted under WAC 460-24A-150.

“WealthBase” Financial Planning Package

The “WealthBase” Financial Planning Package is based on an hourly rate of \$325 an hour for financial planning and investment advisory services. Prior to entering into our agreement, clients receive a proposal of estimated total annual costs based on service requirements and the time involved. Billing will always be paid in arrears after services and hours are rendered. Invoices will include an “Account Receivable” in the description outlining the total balance due for the client, which is the total bill for all hours/services completed. This balance due will be decreased as it's billed against, and/or increased if more hours and services are completed. If the “Account Receivable” reaches zero or less than the clients invoice, the client will be refunded or billing will be paused until more hours and services are rendered. This includes, but not limited to the following services:

- Discretionary investment management with no advisory fee for assets under management.
- An in-depth financial planning process that involves:
 - Establishing and defining the client and planner relationship.

- Gathering data and helping clients articulate goals.
- Analyzing and evaluating the client’s financial status.
- Developing and presenting the financial plan recommendations.
- Implementing the financial planning recommendations.
- Monitoring and making adjustments as necessary.
- At a minimum, semi-annual meetings via in-person meetings or video conferences.
- Unlimited access to MW advisors via email and phone.

The ongoing financial planning process will involve developing, implementing, and monitoring a plan, throughout the year, around many areas depending on the client’s situation. These areas may include but are not limited to:

- Cash flow and budgeting
- College savings
- Debt management
- Employee benefits optimization
- Estate planning
- Goals-based planning
- Insurance advice
- Investment management
- Retirement planning
- Tax preparation services
- Tax planning strategies

These services are included on an ongoing basis and covered at a minimum in semi-annual meetings. The implementation of recommended actions is frequently communicated with the client and monitored. This planning package is primarily for clients who wish to build a financial plan but have little assets to currently work with. The fee may be negotiable in certain cases. Fees for this service may be paid by electronic funds transfer. This service may be terminated with 30 days’ notice. Since the monthly fees are paid in arrears, no rebate will be issued upon termination, after the initial plan has been delivered. There’s a potential that fees for this service may be higher than the industry average and similar services may be offered at a lower fee from other sources.

“WealthPlus” Financial Planning Package

The “WealthPlus” Financial Planning Package consists solely of assets under management fee described in the table above on page 8, outlining investment management fees. This includes the following services, but not limited to:

- Discretionary investment management.
- An in-depth financial planning process that involves:
 - Establishing and defining the client and planner relationship.
 - Gathering data and helping clients articulate goals.
 - Analyzing and evaluating the client’s financial status.
 - Developing and presenting the financial plan recommendations.
 - Implementing the financial planning recommendations.
 - Monitoring and making adjustments as necessary.
- At a minimum, semi-annual meetings via in-person meetings or video conferences.
- Unlimited access to MW advisors via email and phone.

The ongoing financial planning process will involve developing, implementing, and monitoring a plan, throughout the year, around many areas depending on the client's situation. These areas may include but are not limited to:

- Cash flow and budgeting
- College savings
- Debt management
- Employee benefits optimization
- Estate planning
- Goals-based planning
- Insurance advice
- Investment management
- Retirement planning
- Tax preparation services
- Tax planning strategies

These services are included on an ongoing basis and covered at a minimum in semi-annual meetings. The implementation of recommended actions is frequently communicated with the client and monitored. This planning package is for clients with a significant amount of assets. Fees for this service may be paid by electronic funds transfer. This service may be terminated with 30 days' notice. Since the monthly fees are paid in arrears, no rebate will be issued upon termination, after the initial plan has been delivered. There's a potential fees for this service may be higher than the industry average and similar services may be offered at a lower fee from other sources.

Personal & Business Tax Return Preparation

The fees for Personal Tax Return Preparation will be determined based on the complexity of the return and quality of recordkeeping based on our hourly rate or included in the AUM fee arrangement (for clients with 500k in assets under AUM tax preparation is included). The fees may be negotiable in certain cases, will be agreed upon at the start of the engagement, and are due at the completion of the engagement. Clients are not required to utilize any third-party products or services that we may recommend and they can receive similar services from other professionals at a similar or lower cost.

Estate Planning Services

We may recommend a fully digital estate planning service, Trust and Will. For Wealthplus clients with assets in excess of \$500,000 that we're managing, this service will be included at no additional cost. For other clients whom this does not apply (including Wealthbase clients) they can opt into this service for an additional fee that's paid to Trust and Will. We may also recommend other estate planning attorneys as necessary where the fee is paid by the client.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund

and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees.

Item 7: Types of Clients

We provide financial planning, investment management, and tax filing services to primarily to professionals and families within the technology industry along with high-net worth individuals and families.

We have a minimum account size requirement of \$250,000 for our WealthPlus Financial Planning Package, though this minimum is waivable at the advisors discretion. We do not have a minimum account size requirement for our WealthBase Package.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

When clients have us complete an Investment Analysis (described in Item 4 of this brochure) as part of their financial plan, our primary methods of investment analysis are fundamental, cyclical, and charting analysis.

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Cyclical analysis is a type of technical analysis that involves evaluating recurring price patterns and trends based upon business cycles. Economic/business cycles may not be predictable and may have many fluctuations between long term expansions and contractions. The lengths of economic cycles may be difficult to predict with accuracy and therefore the risk of cyclical analysis is the difficulty in predicting economic trends and consequently the changing value of securities that would be affected by these changing trends.

Passive Investment Management involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. The material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the client's portfolio.

Turnover Risk: At times, the strategy may have a portfolio turnover rate that is higher than other strategies. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution of additional capital gains for tax purposes. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed-income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Exchange-Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which client's invest.

Investment Companies Risk. When a client invests in open-end mutual funds or ETFs, the client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the client will incur higher expenses, many of which may be duplicative. In addition, the client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Options

Options and other derivatives carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option. When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

Item 9: Disciplinary Information

Criminal or Civil Actions

MW and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

MW and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

MW and its management have not been involved in legal or disciplinary events that are material to a client's or prospective client's evaluation of MW or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No MW employee is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No MW employee is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

MW does not have any related parties. As a result, we do not have a relationship with any related parties.

MW only receives compensation directly from clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

No MW employee is licensed to sell life and health insurance and does not sell insurance products to clients or prospective clients of the firm.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each client. Our clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to clients.
- Competence - Associated persons shall provide services to clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to clients, principals, partners, and employers, and shall disclose conflicts of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential client information without the specific consent of the client unless in response to proper legal process, or as required by law.
- Professionalism - Associated person's conduct in all matters shall reflect credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any client or prospective client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a client or effect a transaction for a client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” may buy or sell securities similar to, or different from, those we recommend to clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates’ transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Trading Securities At/Around the Same Time as Client’s Securities

From time to time our firm, its access persons, or its related persons may buy or sell securities for themselves at or around the same time as they buy or sell securities for Clients’ account(s). To address this conflict, our Code of Ethics requires that we purchase or sell securities for our clients’ accounts, if suitable and appropriate, before purchasing or selling any of the same securities for any accounts owned by us or our access persons. The only exception to this policy is where our firm or its access persons’ transactions are bundled in an aggregate (“block”) trade simultaneously with client accounts. This policy is not applicable to securities where no conflict of interest exists, such as shares of mutual funds that are equally priced daily.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Specific custodian recommendations are made to clients based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

1. Research and Other Soft-Dollar Benefits

We currently do not receive any soft dollar benefits.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for clients to use, however, clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing clients to choose a specific custodian, we may be unable to achieve the most favorable execution of client transactions and this may cost clients money over using a lower-cost custodian.

The Custodian and Brokers We Use

TD Ameritrade

MW participates in TD Ameritrade's institutional customer program and may recommend TD Ameritrade to clients for custody and brokerage services. There is no direct link between MW's participation in the program and the investment advice it gives to its clients, although MW receives economic benefits through its participation in the program that is typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving MW participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to MW by third-party vendors. As part of our relationship with XY Planning Network, MW receives access to a dedicated team of support staff at TD Ameritrade. TD Ameritrade may also have paid for business consulting and professional services received by MW's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit MW but may not benefit its client accounts. These products or services may assist MW in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help MW manage and further develop its business enterprise. The benefits received by MW or its personnel through participation in the program do not depend on the number of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, MW endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by MW or its related persons in and of itself creates a potential conflict of interest and may indirectly influence MW's choice of TD Ameritrade for custody and brokerage services.

Altruist

For the benefit of no commissions or transaction fees, fully digital account opening, a large variety of security options and complete integration with software tools, MW may recommend Altruist Financial LLC, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the introducing broker to Apex Clearing Corporation, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the clients' custodian. MW does not receive any research or other soft-dollar benefit by nature from its relationship with Altruist Financial LLC, nor does MW receive any referrals in exchange for using Altruist Financial LLC as a broker dealer.

Flourish Cash

We may recommend clients use Flourish Cash, a service offered by Stone Ridge Securities LLC, a registered broker-dealer and FINRA member. Stone Ridge Securities LLC is not a bank. Flourish Cash is an online high-yield savings account that allows clients to receive generally higher interest rates on their cash. MW and Flourish do not have any fee arrangement nor benefit to recommending Flourish as a service. If we recommend Flourish as a service, it's due to it's highly competitive interest rates, FDIC protection, user-friendly digital presence, and other factors. MW does not receive any research or other soft-dollar benefit by nature from its relationship with Flourish Cash, nor does MW receive any referrals in exchange for recommending or using Flourish Cash.

Fidelity Charitable

For clients interested in charitable giving, we may recommend using Fidelity Charitable for donor advised funds. Fidelity Charitable is a low-cost, digital, and easy to user interface for managing charitable assets. MW and Fidelity Charitable do not have any fee arrangement nor benefit to recommending Fidelity as a service. MW does not receive any research or other soft-dollar benefit by nature from its relationship with Fidelity Charitable, nor does MW receive any referrals in exchange for recommending or using Fidelity Charitable.

Aggregating (Block) Trading for Multiple Client Accounts

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as “block trading”). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportional to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13: Review of Accounts

Client accounts with discretionary assets under management will be reviewed regularly on a quarterly basis by Levi Sanchez, Owner, and CCO. The account is reviewed with regard to the client’s investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of client imposed restrictions, excessive drawdown, volatility in performance, or buy and sell decisions from the firm or per client's needs.

Clients will receive trade confirmation from the broker(s) for each transaction in their accounts as well as monthly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

MW will not provide written reports to Investment Management clients. We may provide written reports to clients as needed and will provide a comprehensive financial plan to clients participating in either package offerings. However, we will not provide separate reports for investment accounts other than the client’s monthly statement delivered by the custodian.

Clients purchasing financial planning service (WealthBase and WealthPlus) will receive a written or an electronic report, providing the client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for client referrals.

We receive a non-economic benefit from TD Ameritrade in the form of the support products and services it makes available to us and other independent investment advisors whose clients maintain their accounts at TD Ameritrade. These products and services, how they benefit us, and the related conflicts of interest are described above (see Item 12—Brokerage Practices). The availability to us of TD Ameritrade's products and services is not based on us giving particular investment advice, such as buying particular securities for our clients.

Item 15: Custody

MW does not accept custody of client funds except in the instance of withdrawing client fees.

For client accounts in which MW directly debits their advisory fee:

- i. MW will send a copy of its invoice to the custodian at the same time that it sends the client a copy.
- ii. The custodian will send at least monthly statements to the client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The client will prove written authorization to MW, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least monthly statements from the broker-dealer, bank or other qualified custodians that holds and maintains the client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

For those client accounts where we provide investment management services, we maintain discretion over client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the client.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of client funds or securities or require or solicit prepayment of more than \$500 in fees per client six months or more in advance.

Item 19: Requirements for State-Registered Advisers

Levi Sanchez

Born: 1991

Educational Background

- 2014 - Management Information Systems, Washington State University
- 2010 - High School Diploma, Hanford High School

Professional Designations, Licensing & Exams

CERTIFIED FINANCIAL PLANNER®

- A CERTIFIED FINANCIAL PLANNER® certification is offered by the Certified Financial Planner Board of Standards, Inc. (CFP Board) to individuals who satisfactorily fulfill the following requirements: (1) Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board's studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor's Degree; (2) pass the 10 hour comprehensive CFP® Certification Examination; and (3) complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year). CFP® professionals must also agree to be bound by the CFP Board's Standards of Professional Conduct and complete 30 hours of continuing education every two years. The Standards prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their clients.

BEHAVIORAL FINANCIAL ADVISOR™

- The BFA™ is a professional designation focused on behavioral finance education related to both advisors and client perspectives. It requires the completion of two course, one focused on the advisor perspective and another focused on the client perspective. It also requires completion of a final certification exam that is timed and proctored.

CERTIFIED PRIVATE WEALTH ADVISOR®

- The CPWA® certification is an advanced professional education and certification for advisors who provide the breadth of specialized skills required to meet the needs of high-net-worth clients. This certification requires advisors to develop advanced knowledge and skills to address the wide range of complex issues faced by wealthy individuals and families, including portfolio strategies, wealth transfer, family dynamics, risk management, asset protection, closely-held business ownership, charitable giving, estate planning, retirement planning, and more. Fewer than 1% of financial advisors have achieved the CPWA® certification.

Other Business Activities

Levi Sanchez owns and operates Sanchez Realty LLC to manage his investment properties. This activity accounts for approximately 1% of his time.

Performance-Based Fees

MW is not compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at Millennial Wealth LLC has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

Millennial Wealth LLC, nor Levi Sanchez, have any relationship or arrangement with issuers of securities.

Additional Compensation

Levi Sanchez does not receive any economic benefit from any person, company, or organization, in exchange for providing clients advisory services through MW.

Supervision

Levi Sanchez, as Owner and Chief Compliance Officer, is responsible for the supervision of the actions of Levi Sanchez. He may be contacted at the phone number on this brochure supplement.

Requirements for State Registered Advisers

Levi Sanchez has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
